

The draft of the new EU Space Act

Webinar | September 15, 2025 | 12:30 p.m. (CEST)

INVITATION

We are pleased to invite you to our webinar on the recently published draft of the **EU Space Act**.

On **June 25, 2025**, the European Commission presented the long-awaited draft regulation, which establishes a legal framework for space activities and the provision of space services across Europe. Its objectives are to create a level playing field, ensure the safe and sustainable use of space, and strengthen Europe's space industry as a whole.

In our webinar, we will discuss the key opportunities and challenges arising from this draft, with a particular focus on their impact on the German space sector.

Topics include:

- Which companies are affected?
- Which services and activities fall within the scope of the Act?
- What obligations will apply to those affected?
- How will the approval procedure be structured once the Act enters into force?
- What are the implications for SMEs and start-ups?
- When will the new obligations take effect?
- What should stakeholders do now, and what steps can be taken later?

Date

Monday, September 15, 2025

12:30 p.m. - 02:00 p.m. (CEST)

Online (access details after registration)
